ANTONIO JESÚS RUIZ

MOBILE APPLICATION DEVELOPER

PROFESSIONAL SUMMARY

I am a junior developer with experience from an intensive **mobile programming** bootcamp and the 42 course. Since my initial studies in higher education, I have worked on various personal projects and continued my training, driven by my **passion for technology**. I have demonstrated **flexibility** and **problem-solving** abilities in changing environments, along with a high tolerance for frustration. I am looking for a project where I can apply my knowledge in mobile development and **continue to grow** in a company that shares my values.

WORK EXPERIENCE

Junior Developer
DNT FRAMEWORK, Málaga
March – May 2022
- Managed databases, ensuring their integrity and security.
- Developed a facial recognition application using Amazon Rekognition and Google Meet.
- Automated processes with UiPath, improving operational efficiency.

Mobile Application Development Bootcamp
Qualentum – VASS, Madrid (Online)
March – July 2024
During this intensive bootcamp, I acquired advanced skills in mobile application development and key tools for modern programming. The course included:
Advanced **Kotlin**, **Design Patterns**, **MVVM**, **SOLID** Methodology, Git Flow, **Layout**, Security, **Dependency Injection**, API Requests, **Lint**, **SonarQube**.
Featured Projects:
ChitChat: A chat application that utilizes an API generated by VASS for communication between employees.

EDUCATION

42 Málaga Fundación Telefónica
April 2022 – September 2024
During my training at 42, I developed key skills in programming and teamwork, including:
Docker. HTML. JS. **C**. CPP. **Flexibility**, Resilience to Frustration, Problem Solving, **Agile Learning**.

Higher Technician in Telecommunications and Computer Systems
September 2014 - June 2016, IES Rosaleda, Málaga.

ADDITIONAL COURSES

Mobile Applications Course
Module MF0227 – Object-Oriented Programming.
